

All Eyes on Israel

For years, endless conflicts have been taking place over the land of Israel. Palestinians and Jews have gone neck and neck battling over property rights. Even so, the Jews have been extremely gracious in allowing Arab settlement. They could very well be selfish; after all, God did promise this land to the Nation of Israel, and only them, way back in Genesis through Abraham, Isaac, and Jacob.

Furthermore, the borders of the Promised Land realistically extend beyond the borders of the State of Israel, as Dan and Naphtali, two of Jacob's children, are buried in Sidon, a Lebanese city; and two and a half of the Twelve Tribes settled in modern day Gaza and Kingdom of Jordan.

So, what do we have here? Christian-professed President Barak Obama telling the Jews they cannot continue to build in Gaza and East Jerusalem (Judea and Samaria), despite Biblical proof of God defining the borders of His Promised Land in Genesis, Numbers, Deuteronomy, Joshua, and Ezekiel.

Did the Lord not instruct us through Paul the Apostle in Romans 15:22 to give to the Jews material things because they have given us spiritual things? So this being the case, why are they being pressured to relinquish what is rightfully theirs?

Everything that Christ-followers have pertaining to their faith comes from the Jews. The Bible from which we read was written by Jews (through the inspiration of God's Spirit). The Prophets were Jews. The Apostles were Jews. And our Lord and Savior Jesus Christ is a JEW! He is returning to the earth as a Jewish Warrior and Judge, clothed in Jewish vestment. If there is no other company of people that should care about Israel, then Christ-followers should be that people!

Don't think it's very smart to mess with a people whose God, Yahweh (YHWH), calls them the “apple of His eye.” And it's definitely not wise to push a Two-States Solution, giving part of Yahweh's land to Muslims—in the name of peace.
